

Dear Andreas, Johannes and all the donors ,

We extend our most sincere thanks and gratitude to you for supporting Basanti mission specially our hostel children through your sacrifice, hard work and commitment . on behalf of Bsanti mission, hostel children, English section, Staff, Parents and Sister I express my appreciation for all that you do to help us in serving the mission.

This Year we began our new academic session 2023 on 2nd jan . we began it with the distribution books and copies to the children . we too had a graduation ceremony where students are appreciated and encouraged for their performance in the last academic year. They are awarded certificates and prizes.

As we opened the school we also started accommodating the hostellers . there are 65 students at present in the hostel . we make every effort to motivate and create an interest in them for studies .

All of them are from a very poor background , single parents, broken families, . its indeed very challenging to get them interested in studies and keep going. All the sisters sincerely get involved in the care of the children. Apart from studies they have indoor and out door games, cleaning, gardening , signing, drawing, quiz competitions, spoken English classes (introduced this year) for their all round development and personality enhancement. We have completed two terms of examination . our girls have done well. They also have tutors helping them with their studies.

The children participate in various activities conducted in the schools. We also organize awareness programmes on health and hygiene, mental health, adjustments

Tips for studies, leadership training etc. great leaders birthdays are celebrated with great care and we stress on adopting an eco friendly life style in order to save the earth. We also train our students to create a plastic free Zone in our surroundings.

As many of our students do not have the means for books and stationery we have provided them with books, uniform and school stationary items for the new academic year.

We also have helped at least 15 students in getting their spectacles as their eyesight was bad.

A LIITLE MAUEL WORK.

CHILDREN AT THEIR MEALS.

We also had the honor of Mr. Andreas and Family visiting us in the month of April It was such exciting and joyful experience for us though the weather was extremely hot.

BOOK DISTRIBUTION

ON A TRIP TO GOSABA.

Our Hostel children are deeply indebted to you all for the generous help that you extend for their studies .

Our teachers are also very happy and thankful for your help and support towards them.

Various activities in the hostel and schools for their development etc.

Once again we want to thank you for the help and support you give us to serve our mission here in this beautiful Island. We continue to pray for your intentions and for your families. May God Bless you and protect you always.

Thanking you

Sincerely

Sheena FC
